9.2 Connect a Table, Graph and Equation

Student activity · each notebook costs $4; there is no other charge

Complete the table, then plot the ordered pairs.

Notebooks x	0	1	2	3	4	5
Cost y ($)	0	4	_____	_____	_____	_____

Write an equation: _____. Explain how the rule appears in the table and graph. Is (2.5, 10) a possible purchase in this situation? Why?

_____

_____
